

Bangladesh Private Hospital Clinic & Diagnostic Association

বাংলাদেশ প্রাইভেট হাসপিটাল ক্লিনিক এন্ড ডায়াগনস্টিক এসোসিয়েশন

Diagnostic Center Categories:

Category A (Advanced / Comprehensive Diagnostic Center):

- Offers a full range of diagnostic services:
- Pathology, Biochemistry, Microbiology, Histopathology
- Advanced imaging: MRI, CT Scan, Ultrasound, Mammography, X-ray
- Specialized tests (Cardiac, Genetic, Tumor markers, etc.)
- Highly qualified lab technicians and radiologists
- Equipped with modern and automated machines
- Provides 24/7 service and online reporting
- Often a referral center for hospitals and clinics

Category B (Intermediate / Standard Diagnostic Center):

- Offers commonly needed diagnostic services:
- Routine blood tests, urine, stool tests
- Basic imaging: X-ray, Ultrasound
- Staff includes experienced technicians and some specialists
- Modern but limited equipment
- Typically serves local clinics and patients needing standard investigations

Category C (Basic / Primary Diagnostic Center):

- Provides essential diagnostic tests only:
- Basic blood tests, urine, stool, and simple biochemistry
- Minimal imaging (basic X-ray if available)
- Staff includes general lab technicians
- Limited equipment, mostly manual or semi-automated tests
- Serves local community for routine check-ups and screening
